JOSIAH TURNER, Jr., EDITOR.

DEMOCRATIC PLATFORMS, PRINCIPLES AND PURPOSES.

The Radical party of this country is the last organization upon earth which can reasonably lay claim to consistency of action or profession. Nevertheless its newspaper mouthpieces, with the most unblushing effrontery, are constantly harping upon what they are pleased to denominate "Democratic inconsistencies," and just at the present time they are engaged in this manner to an unusual extent. They profess to have found cause for this extraordinary ado in what they see fit to term the contradictory platforms adopted, and the opposite course of action pursued by the Democracy, of late, in different sections of the country.

Now were we to adopt the Radical style of argument and reply, we might answer by referring to the past and present course of the Radical party. We might dilate upon their solemn pledges made but to be broken, their positions openly taken and receded from the moment their ulterior designs were accomplished; but we refrain for the present. Radical consistency may pass for what it is worth with the people.

But let us examine the grounds upon which these charges of Democratic inconsistency are based, and see whether they are well or ill founded. In the first place we are told that the platforms recently adopted by Democratic State Conventions in different sections of the country are clearly antagonistic in their character. In what does that antagonism consist? Let us see. Certain questions which are made prominent issues in one State are ignored or passed over as "dead issues" in others, while far different questions are put forward as the live and leading issues of the day. For instance, while in Massachusetts and some other States, the Democracy have seen fit to practically ignore the question of enforced negro suffrage, in Ohio opposition thereto has been made one of the main planks in the Democratic platform. So too while in some States the financial policy of the party in power is held up as the main point of attack for the Democratic forces, in others it is passed by without notice. In Massachusetts the whole power of the Democracy is brought to bear against the Radical system of prohibitory legislation, while in the Southern States they are uniting with the conservative Republicans, and bending all their energies to the work of restoring the Union of the States and the political rights of the people, looking upon negro suffrage as a settled fact in their section for the time being at least.

And this is the "Democratic inconsistency" which the Radicals have seized upon so vigorously with a view of making it appear to the credulous that the Democratic party has no fixed principles of action, no well defined purposes to accomplish, and pursues only the shifting policy which mere expediency dictates. But here is no foundation for the charge. There is no inconsistency here—no show of antagonism in the positions taken, the courses of action pursued by the Democracy in the different States or sections.

The great principles and purposes of the Democratic party of this country have been openly and proudly proclaimed to the people ever since its existence as a political organization. The principles which underlie its action, which give it life and power, are those of devotion to constitutional liberty and republican government. Its great governing purpose has been, and still is, to defend, preserve and perpetuate our free American institutions, and secure to the nation, for the present and in all time to come, all the manifold advantages which are their legitimate result. In that purpose they have been opposed at all times by the most unscrupulous enemies, men who sought the overthrow of our institutions, the destruction of our popular rights and individual liberties, and the establishment in our midst of class distinctions, privileged aristocracy, and the worst forms of despotism.

These men are to-day arrayed under the black banner of *Radicalism*. They have drawn to their support, in one way and another, by false promises and shameless hypocrisy, by hollow professions of devotion to "liberty and equality," thousands and millions of our countrymen, who, if they had but comprehended their designs, would have scorned to espouse their cause, till they have well nigh accomplished their object. The spirit of our institutions is crushed, if not destroyed. Our Union of free and sovereign states, which our ancestors fought to establish and hundreds of thousands of their posterity died to preserve, is a thing of the past, sacred and jeered at by the Radical leaders, and the most sacred rights of those states are held at the mercy of Federal bayonets. Wealthy aristocrats are riding rough shod over the liberties of the masses who are fast becoming the slaves of exempted bondholders and protected monopolists.

Yet the Democracy do not despair.—They have not abandoned their principles, they will never yield their great purpose.—Their first object is to compass the defeat and secure the overthrow of the Radical power. To do this they must attack it in the most advantageous manner and at the most vulnerable points. In national elections, as state and local elections they must keep up the contest with vigor.—Keeping in view their cherished principles, adhering firmly to their one great purpose, it is for the Democracy of each state and section to form for themselves their plan of attack. This they have done and are doing, and if "the signs of the times" are not clouded with deception, success will yet crown their efforts.

Nor is there either inconsistency nor antagonism in the various plans adopted. If the Democracy of Massachusetts choose to meet their opponents in their attack upon individual rights through prohibition and a corrupt constabulary, while their brethren in California oppose them in their efforts to complete the subversion of the guaranteed rights of states; if the Democracy of the great central states of the West attack them upon their unjust and iniquitous financial policy and their oppressive tariff system, while the Democracy of the South direct their blows against proscription and disfranchisement, who shall say that there is inconsistency in their several courses of action, since they are all laboring for the same end with the means and in the manner which they deem most powerful and advantageous.—*Exchange.*

UNIVERSAL CLOTHES WRINGER.

Improved with ROWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Selden Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it, one laundress is dispensed with."—*Wm. M. JOSIAH TURNER, Jr., EDITOR.

WEDNESDAY, SEPTEMBER 29, 1869

MORE OFFICIAL EXTRAVAGANCE AND CRIME.

Extravagance, fraud, corruption and crime, absolutely permeate the present State government, "from turret to foundation stone." (We quote from Judge Reade, in Jacobs vs. Smallwood, 2 Phil., 112.)—The government itself is on a scale the most extravagant; at least, the machinery costs an enormous amount of money to keep it going; but bad as it is in this respect, those who administer it are infinitely worse.

We have had occasion to tell the public of some of the outrages and crimes of many of the higher officials. But such outrage is not confined to those in the high places, alone, but the "small fry," proceed upon a scale of magnificence that eclipses anything of a like character, ever before known in this country.

To illustrate the truth of what we here say, we call attention, especially the attention of the people of Wake county, to the outrageous, reckless and lawless extravagance of the Board of Commissioners of the county. The five County Commissioners, plain men, without any peculiar learning or skill, charge the county of Wake as follows:

Paid J. P. Andrews, for 151 days at $3,	$453 00
Paid for mileage, 144 miles, 5 cents per mile,	7,20
Paid to Wm. Jenks, for 113 days, at $3,	339,00
Paid for mileage, 4 288 miles, at 5c.	214 46
Paid to C. J. Rogers, for 150 days, at $3,	450,00
Paid for mileage, 4,268 miles, at 5c.	223,40
Paid to Jacob Sorrell, for 146 days, at $3,	447,00
Paid for mileage, 2,980 miles, at 5c.	149,00
Paid to R. W. Wynne, 153 days, at $3,	459,00
Paid for mileage, 3,050 at 5c.	153,00
Total,	$2,894 00

The first thing noteworthy in this report is, that from the 1st day of July 1868, to the date of the report, the Commissioners say they have been *necessarily employed one hundred and fifty days*. This is simply monstrous! it is a crime! The official business of the Commissioners is not *one fifth* of that formerly transacted by the Justices of the County Courts. Thus we know, because we know the duties of each class of officers. The county Courts used to transact all the business of these Courts in the year, at least five times as much as that done by the county Commissioners, in *twenty four days*—four terms of *six days each*. The people know this, for they know the County Courts were emphatically the *people's Courts*, and the cheapest Courts in the world and of great use.

Then is it not manifest that the Commissioners have served the people *five times as many days as were necessary*! And for what? There is but one answer to this question, that is, they did it to get three dollars a day and mileage at five cents a mile. This is the explanation.

The next noticeable thing in the report is, the aggregate amount paid them is $2,894 00! These men know, the people of Wake and of the State know, they never earned the fourth of this sum! When did *five Justices* of the Peace in the good old times; the days of honest, fair dealing, get for holding the four terms of the County Courts, in any one year, $2,894? Never! But these five Commissioners get this sum under and by virtue of the "loil" radical, new system of government! Do the people look at and understand it?

There is another noteworthy thing about this report, that is, J. P. Andrews charges for *one hundred and forty-four miles* of mileage, when, in fact, he lives here in the city of Raleigh. How then is it possible that he is entitled to mileage. Does he charge for walking from his place of board to the Court House? What a shameless outrage is here brought to light by this report! Then C. J. Rogers, who is Post Master here in the City, within two hundred yards of the Court House, charges, in addition to $3 a day, for 4,268 miles travel! Was there ever anything so unblushing and monstrous? Anybody can see through the whole matter. It is a shame, an outrage and a crime, upon the hard working tax payers of the County! The Grand Jury ought to present these men at the next term of the Court, and the Solicitor and the people of the County ought to see that they are presented, indicted and punished. Will the Radical Judge charge the Jury on the subject of such outrage and crime? We shall see.

We learn that similar outrages, but not on quite so magnificent a scale, have been perpetrated in other counties. If we put the cost of this *luxury* of County Commissioners in the other counties of the State, at one half that of the Wake Commissioners, the aggregate for the State will be $125,889! This is the cost to the tax paying people of the counties of the State, for Commissioners alone. Add to this the cost of Clerks, Registers, Justices of the Peace, Sheriffs, Coroners, Constables, and Boards of Supervisors, School Commissioners, &c., &c., and what will the county expenses of the State under this "loil," radical State Government, be? At least *one million of dollars*, and the people will have to be taxed to pay it! What do they think of it? Isn't it a mighty high price to pay for such a show? They must pay it, too, to men for the most part utterly incapable and corrupt.

How long will the people—the hard working, tax-paying people, tolerate such official corruption and crime?

Recollect reader, all this money that you have to pay in taxes, that we have just been talking about, is outside of your State taxes for Railroads, penitentiaries, useless State officers with high salaries, for which your bonds that you have got to make good, dollar for dollar in gold, are taken to New York and sold for 35 cents in the dollar, gold. We have a good deal more showing up of this sort to do, which we will attend to before long.

THE GOVERNOR'S DETECTIVE, WILLIAM HUSKEY.

We have several letters from Chapel Hill giving an account of this new detective William Huskey. He is spoken of by all the correspondents as a man of bad character. It seems that Huskey exhibited his commission from the Governor as a special detective, and said the Governor paid him $1,000 dollars a year and $500 dollars for every Ku Klux he may have convicted. One of the correspondents says that Huskey was recently convicted of larceny, and complains that such a man should carry the great seal of State in his pocket.

This detective and friend of the Governor was severely whipped by a Ku Klux.

Huskey has requested us to say to the people of Chapel Hill, that H. B. Guthrie was the cause of all his misfortunes, and that he was no guard for Guthrie, as Guthrie stated; he further stated that Guthrie was now blaming him because he did not kill a Ku Klux.

Huskey said Guthrie's son and Guthrie himself were in the house, and if neither of them would shoot, they should not blame him for refusing to do what they dared not. Guthrie, Holden and Huskey, what a trio! God save the State!

JUBAL DILLARD.

Jubal Dillard, of Rockingham, is a colored man, works hard, makes an honest living and, now and then, a Conservative speech. At the Ku Klux Court, he failed to answer to his name as a witness. A *sci. fa.* was run against him to show cause why he should not pay $40 for failing to attend, as he was summoned to do. Jubal stated to Judge Tourgee that he lived twelve miles from the Court House, and that he came in soon after he was called.—The Clerk stated that it was so, for he saw Jubal come in soon afterwards.

The Judge required Jubal to pay the cost, which was about $7, and added that it would learn him to start a little sooner the next time. The bar, instanter, called up Jubal in the presence of the Court and paid the cost, which the Judge had remitted to him.

A gentleman living at Leaksville, was summoned to Court as a witness, he attended on Monday, but there was no Judge or Court. On Tuesday he started, but was told on the way that the Judge had not arrived. On Wednesday he was too late and was called out. He had forfeited, as Jubal has. The Judge and Solicitor did not make him pay cost, or half cost, as they did Jubal. There was this marked difference between the two, one was white and had a horse to ride, and never made a speech against Judge Settle and the carpet baggers.

Jubal Dillard had, and besides is a subscriber to the SENTINEL. By-the-by, we received two colored subscribers besides Jubal. Ned Bennett, of Madison, a very intelligent and industrious man, well thought of by all, and Dennis Broadnax, of Cascade, Pittsylvania county Va. Dennis Broadnax, as the name imports, is of the first family of Virginia.

WHEN THE DEMOCRACY RULED THE NATION.

In a leading editorial, the Cincinnati *Gazette*, tells this truth:

"The Democratic party enjoyed a supremacy in this country for many years."

Well would it have been for the country and its people if this rule had continued.

During the many years of Democratic supremacy, there was no vast National Debt, to eat out the substance of the people.

No Government tax gatherers were to be seen—no stamp act was in force—no tax on all the poor man eats, wears and consumes.

No States were cut in the cold, and denied their constitutional rights within the Union.

No standing army was retained at a vast expense, to enforce negro suffrage on an unwilling people.

The President of the United States received no presents, as a means of securing office to the donors.

Government vessels were then used for legitimate purposes, and not to carry the President and his friends to watering places, at the cost of the taxpayers.

Talent then ruled the nation.

Honesty in public officers was the rule then and not the exception.

The country was respected abroad, because it asked nothing that was not clearly right, and it submitted to nothing wrong. *Statesman.*

A school teacher recently remarked to us that he believed parents had changed their policy in educational matters within the last few years. Formerly, the boys were thoroughly educated, and the girls only learned the rudiments. Now, he said, the girls received most attention in this respect whilst the boys were put to work after getting a common English education, or going to school enough to learn to read and write and cypher.

Our experience is not sufficient to say to what extent this remark is true, but one thing is certain, since the abolition of slavery white boys are more willing to work than formerly, for they begin to understand that those who do not work are considered trash, while the working men are certain to become the most respectable portion of the community. But while boys [illegible] should also be [illegible] education in [illegible] should [illegible]. *Western Democrat.*

PUBLIC MEETING.

In pursuance to previous notice, the citizens of Chapel Hill and vicinity, assembled at the Township House at 12 o'clock, on Saturday September the 25th 1869. On motion of Mr. Andrew Mickle, the meeting was organized by the appointment of John R. Hutchins chairman, and J. M. Alexander secretary. At the request of the chairman, the object of the meeting was explained by Dr. Wm. P. Mallett, who thereupon moved, that a committee be appointed to prepare resolutions expressive of the sense of the meeting. This motion having been put to the house and carried, the following gentlemen were appointed on the committe: Dr. Wm. P. Mallett, R. H. Lee, J. H. Watson, H. J. Stone, Foster Utley, Col. W. L. Saunders, Hon. T. M. Argo, W. J. Newton, A. Mickle, J. P. Freeland, and Feudal Sutherland, Esqs. The committee after having retired for consultation, returned and unanimously reported as follows.

We the people of Chapel Hill and vicinity have heard with surprise, and indignation of the appointment by Governor Holden, of a secret spy in our midst. This has been done in the face of the fact, that we have quietly and patiently, during the whole time, almost since the close of the war, submitted to grievances, and indignities, scarcely to be borne at all by free men.

We have submitted patiently, to the organization in our midst, of negro leagues, whose chief officer in the State was Governor Holden himself. We have submitted patiently to the appointment by Governor Holden, of negro magistrates for this community, and to his failure to appoint white magistrates also, after having been petitioned so to do. We have submitted patiently, to the action of the board of commissioners of Chapel Hill, of which Mr Solomon Pool, President of the University, is a member, in unanimously electing a negro constable, over a white competitor, notwithstanding that thereby, the whole administration of the law, was thrown into the hands of negroes; and that in this whole vicinity—there was neither white magistrate to issue process, nor white officer to execute it.

We have submitted patiently to the destruction of the means of support for ourselves and families, by the withdrawal of patronage from the University, consequent upon the appointment, and persistent retention in office, of a faculty obnoxious to the people of the State.

We have submitted quietly to the introduction in our midst of armed negro soldiers, under pretence of guarding College property. We have submitted to these things partly because we were powerless and under despotic rule, partly because we hoped for brighter days and desired to throw no obstacle in any way, that promised to open to us the means to provide the better for ourselves and little ones. We find however, that patience and submission do no good, and are of opinion, that the time has come, when we ought to declare our sentiments, and especially, to express our indignation at the insult put upon us, by the appointment of a man—a man of bad character, to spy secretly upon our actions. We do, therefore declare,

1st. That the act of Governor Holden, in giving a commission on the 27th day of August 1869, under the broad seal of the State of North Carolina, to Wm. M. Huskey a man of notoriously bad character, "as a chief detective for the State of North Carolina," is an outrage upon the people of this community, and of the State at large, and it is a palpable violation of the substance and spirit of the 15th Section, I Article, of the State Constitution, which declares that "General warrants whereby any officer, or messenger, may be commanded to search suspected places, without evidence of the act committed, or to seize any person, or persons, not named whose offence is not particularly described, and supported by evidence, are dangerous, and ought not to be granted."

2nd. That the action of Governor Holden, in refusing to appoint white Magistrates, when requested so to do, and the action of the Board of Commissioners, of which Mr. Solomon Pool, President of the University, is a member, in unanimously electing a negro constable, thereby putting the whole administration of the law, in the hands of negroes; was an outrage upon the white people of this community; and demands the unqualified condemnation of both white and black, as tending to develope an unnecessary antagonism, between the two races.

3rd. That after the refusal of the Magistrates of this county to sign a request to the Governor, in order to justify him, under the law, in quartering armed troops in our midst in time of peace, any further attempt in that direction, will put at hazard, the peace and quiet of the community.

4th. That it is our belief that as soon as the secret society, known as the Union League, an association formed, as we believe, to organize oppression, and in violation of law, shall have been disbanded, all organizations entered into to ward off such oppression will also be disbanded.

5th. That while in our opinion it is the imperative duty of every good citizen, first, to seek redress for grievances and reparation for injuries, by the ordinary process of law, and while we believe the welfare of the State demands that the most profound veneration, respect and obedience, be paid to the law and its duly constituted officers, we are yet not prepared, hastily or without reserve to condemn good citizens and true men, who, in self defence, resort to other means because they fail to obtain from the law that protection and security which they have a right to demand.

6th. That in our opinion the redress of grievances by any other process than that provided by law, is liable to so great abuse and fraught with so much danger to the peace and harmony of the State, that we think it ought to be resorted to only in the most extreme cases, and then only with the utmost prudence, caution, discretion and circumspection.

7th. That in justice to the colored people of this community, we feel it to be our duty to say, as a general rule, they have deported themselves with becoming and gratifying prudence and moderation, in spite of the persistent attempts made to arouse their passions and excite their prejudices against the white people, and that from them as a people, if left to themselves, we apprehend no trouble.

On motion of Mr. Argo, the report of the committee was, after a few remarks, unanimously adopted. On motion the secretary was requested to send a copy of these proceedings to the Raleigh *Standard*, Raleigh SENTINEL, Wilmington *Journal*, and the Hillsboro' *Recorder* for publication.

On motion Mr. J. B. Mason, was allowed to have his opposition to the adoption of the report of the committee, entered upon the record.

On motion the meeting then adjourned.

Correspondence of the Sentinel.

SOUTH MILLS, Sept. 20, 1869.

Mr. Editor:—Presuming that a short communication from Camden County might be of some benefit, and afford some items of interest to the many readers of the SENTINEL, we have attempted, for the first time, to prepare a scrap for public print.

Under the foreign influence of modern Radicalism in "South Mills Township," we are rarily on the high road to prosperity. Not an officer mentally or morally qualified for the positions they hold; possessing, however, the vindictiveness and savage rapacity of the beasts of the field. "Able supporters" and violent defenders of every intrigue, plot, or scheme gotten up by the Union League.

This "Union League," resolving in secret conclave to burn the barns, and "make daylight shine through the bodies" of such men as F. N. Miller, D. D. Ferebee and W. R. Abbott, in the event of a discharge or removal of a tenant. Fine state of affairs, indeed! when men, intelligent, respectable, peaceable and quiet, because, forsooth, they do not prefer black to white, cannot exercise the right of disposing of and controling their own property as they may see fit. This, Mr. Editor, is no sensational report. We proceed to give the facts in the case:

Case A.—A colored man voted the Conservative ticket at the last election, and he has been hunted like "the wild boar of the mountain," at his residence, on the highway, and through the woods, even arraigned in his Church for perjury and treason to both man and God.

Case B.—A member elect of the School Committee steals his neigubor's wife, runs away to Va., returns home, is required to give bond for his appearance at December Term, and our distinguished Magistrate takes as security to the bond, a negro just out of prison, last year, having not a dollar in the world to the wonderful sum of two hundred dollars.

Case C.—Both of our Magistrates guilty of stealing cattle, and will doubtless be tried at the next term.

Case D.—The large barn of Col. D. D. Ferebee was burned with all its contents, on the night of 14th. It was the work of an incendiary. Who did it? A mean, low, woodsskulking bacon stealing, union league white man. A renegade from Arkansas—deserter from the Army, a native however of this place. He is still at large! Where is Gov. Holden's loyal Militia? If it had been a Radical's barn burned, the Conservative white man would have been hunted day and night, until some innocent good man would have fallen a victim to Radical rule and Holden & Co's fury.

The loss of the Colonel is estimated at $5,000. It was the largest and best constructed barn in the District of Edenton.—Even the Yankee soldiers refused to destroy it during the war, while encamped on the premises. Yet a *home born slave* of the Union League, eating and sleeping with negroes, having (through a freak of nature) a white skin instead of a black one, has proceeded in his hellish work of destruction, and the Constable elect, (not able to bond) with writ in hand, mocks the veritable and redoubtable leader of the League and says, you shall be protected in your burning expeditions.

Such, Mr. Editor, is our lot in this land of Radical rule, oppression and Moboracy. Is it not high time for the white men of our several counties to awake to a sense of their duty, and the importance of making a provision for our security and protection in the future.

God grant that our time of deliverance may speedily come, when the native born sons of North Carolina shall control the destiny of our State, and rid her of the accursed Yankee innovator and scalawag barn burners.

JUSTICE.

Correspondence of the Sentinel.

VALLEY OF THE MISSISSIPPI,
ILLINOIS, September 16, 1869.

MR. EDITOR:—It has been eleven years since I left my native State for a home in the then far West. And it might be reasonably supposed that I had measurably forgotten the home of my youth, and the friends that I left behind. But it has not been so with me, I am still a great admirer of the South and feel as deep an interest in her welfare as when I lived within the confines of the Old North State.

The Weekly SENTINEL is a welcome visitor as it comes from the Capital and center of the State, freighted with the news from all parts, and giving an account of the actings and doings in different localities.—And I also admire the way in which you handle those heartless, unworthy and incompetent creatures that now domineer over the State as her officials. I hope you will continue to hold them up to public scorn and derision. "Lay on, Macduff, and cursed be he who first cries hold! enough."

The history of North Carolina for the past four years has been a history of wrong, oppression and tyranny. Private persons have been shamefully abused and the government slandered, and defrauded. To be satisfied of this it is only necessary to look at the proceedings of the last Legislature, how they have abused their powers and privileges in helping to bankrupt the State. And all these enormities have been winked at and encouraged by the Chief Magistrate of the State as well as other high officials. How true it is "when the wicked rule the people mourn."

Time seems to have wrought great changes in North Carolina, in the midst of the great devastation made by the war. There seems to have fallen by the hand of death many of her brightest intellects, statesmen and jurists; such, for instance, as the Hons. John M. Morehead, George E. Badger, R. M. Saunders, Thomas Settle, John M. Dick, George C. Mendenhall, Jas. L. Gains, Frederick Nash, Alexander Little, John A. Gilmer, Jonathan Worth, and others I might name. These men, or the most of them, once filled the highest offices of the State with honor and dignity, because they were "worthy and well qualified." But when we reflect upon whom their mantles have fallen, and who now occupy the offices which they once filled, many of whom are foreigners, unacquainted and unaffiliated with the Southern people, and who have no interest in common with them, and who care not for the prosperity of the South. All they want is to fill see the Government, and put it into their own pockets, of which intention and determination they have given unmistakable evidence in the case of North Carolina. It is to be hoped that the good people of the State will, ere long, arise in their might at the ballot-box and, like Virginia, Tennessee and other States, hurl these vile miscreants from office and all their places with honest, upright citizens, who will deal justly and love mercy, and carry out the principles of the Constitution and Government; and say to these vampires, who are now sucking the very life's blood from the State, "Stand behind me, Satan."

Permit me to subscribe myself a genuine
OLD CAROLINIAN.

A gulf cable dispatch from Havana states that ex Confederate General Jordan, of the Cuba insurgent forces, has offered to sell out to the Spanish authorities on the island. The story is probably an invention, and will be contradicted by the next advices, as is the case with nearly all the Cuba sensations.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no others when these could be obtained.

From Rev. ALBERT SMEDES, D. D., Rector of St. Mary's School, Raleigh, N. C.

RALEIGH, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

WARRENTON N. C.

"Davies' Mathematics" was adopted by me in 1856, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation.

J. E. DUGGER.

From W. G. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; the head of water, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: that of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purposes.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance.

G. D. BERNHEIM.

From Prof. Jos. H. FOY, President Stantonsburg Scientific High School, N. C.

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——, which stands next best on the list.

McNally's, the fifth book of the course is decidedly the *chef d'oeuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern States. The series consists of the National Primer, or Word Builder, National Elementary Speller, The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses. It requires** professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr. Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice,** adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,
F. J HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

Raleigh, March 29, 1866.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

Columbia, June 19th, 1866.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.

Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.

THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

JUSTICE ADAM'S COURT.—The State and James A. Crews, against John Price and Crawford Moss, two colored butchers of this city, on a charge of receiving stolen goods, in buying a pair of oxen, stolen from Mr. Crews, who resides in Granville county. The thief has not been recognized. C. M. Busbee, Esq., appeared for the Commonwealth and Sion H. Rogers, Esq., for the defendants. After hearing the testimony and the arguments in the case, His Worship bound the accused to answer at Court, in a bond of $400.

REGISTRATION.—Up to the present time our Superior Court Clerk, Col. J. N. Bunting, has admitted to probate for Wake County, about one thousand deeds. Yesterday, (Tuesday,) was the heaviest in this work of any preceding; there were *eighty four* deeds admitted to probate during the day, which kept the Judge and his assistants pretty busy.

"We have heard of some editors taking "grits" into their stomach. That looks a little *gizzardy*—and we expect next to hear that they have turned to geese and gone to nipping grass."

The above is a scintillation from the Local luminary of the *Standard*. As to turning to geese, we *have* been turning to them for some time, and have been considerably amused at their cackling; and we shall take an occasional "nip" at—if not grass—some other *green* thing, occasionally, until that South West by South Local improves in the quality of his wit, (so called.)

PERSONAL.—We had the pleasure of a call yesterday, from J. O. H. Nutall Esq., of the Salisbury *Examiner*, who was down on a visit to friends in Wake.

FROST.—We were up yesterday (Tuesday) morning, earlier than usual; necessarily compelled to get up to mail a letter on the morning train, and as we walked toward the Railroad station, we saw frost—the first of the season—on the low places, especially on the bridge across the gulley on Harrington Street. So let it be recorded, the first frost of the season, of the Autumn of 1869, latitude of Raleigh, occurred on the morning of the 28th of September.

We learn there was frost also in Orange and Granville, which had a depressing tendency on the spirits of some of the tobacco planters.

GOES TO HILLSBORO'.—We are requested by Dr. M. Burkhardt to say that he will be in Hillsboro' next week, and will remain through Tuesday, Wednesday and Thursday, where he can be consulted by those wishing to obtain assistance to their eyes.

Recorder please notice.

COTTON.—On yesterday there was a considerable quantity of Cotton in our market, and the prices ranged from 24¼ to 25¼.—The quality of the cotton offered this season is some better than it is in ordinary seasons, owing to the long dry weather, causing it to open clearer than usual, and its freedom from earth stain which the lower bolls usual get in rainy seasons.

THE LOUISIANA EQUITABLE LIFE INSURANCE COMPANY OF NEW ORLEANS.—This is one of the very best companies in the country. It has the endorsement of Bishop Wilmer, Gens. Beauregard, Hood, Harry Hays and the leading men of New Orleans. General Beauregard says: "Its Officers and Directors have been selected from our most reliable and intelligent citizens.

Instead of sending $40,000,000 annually North, our citizens can find better companies at home.

THE DEAF AND DUMB AND THE BLIND INSTITUTE.—We have hitherto omitted, unintentionally, to call special attention to the card announcing the beginning of the next session of the State Institution for the education of the Deaf and Dumb and the Blind. The session begins on Monday next, Oct. 4th, and already pupils are coming in.

The purpose of this Institution is of the noblest and most praiseworthy character. It takes the poor unfortunate class of human beings, who are cut off by physical defect from most of the sources of knowledge, and by a diligent but certain effort, places them in communication with their species, and overcoming, to a great extent, the misfortune which would keep them in isolation for life.

We would not only call the attention of parents and guardians, who have children of this unfortunate class under their charge, to the advantages of this Institution, and the moral obligation that rests upon them to give such children a chance to avail of these advantages, but we think it the duty of every Christian, every philanthropist, and every citizen in the state, to use his influence in his respective county or neighborhood, to have all children of the class for which this Institution was organized, sent to it.

The President, Willie J. Palmer, Esq., and the subordinate officers, are fitted by mental and moral qualifications for the positions they hold, to educate and care for those sent to the Institution, and it is a *cruel kindness*, a *misdirected affection*, which influences parents to keep their deaf and dumb or blind children at home and thus deprive them of the advantages that will so much enhance their happiness in after life.

It may be proper to state that provision is made for the colored of this class of unfortunates, as well as the whites. They are lodged and educated in a separate building, hired at present, for the purpose, in the Southwestern portion of the city, where they are, however, under the direction and supervison of the President.

GATHERING IT IN.—Yesterday, we understand, our Sheriff receipted for some two thousand dollars taxes, paid in by the people of Wake. If they could only see the "value received," they are to get for the paying out so much of their hard earnings, no doubt it would be paid with a great deal more cheerfulness.

A SINGULAR CABBAGE.—Mr. O. L. Burch, of this city, informs us of a singular cabbage in his garden, which he describes thus: It is of the curled Savoy species, was planted last year, and left to seed last Spring. It produced a large quantity of seed, which ripened and were gathered; but instead of the old stalk decaying, after producing the crop of seed, as is usual in such cases, young buds made their appearance between the old limbs, to the number of thirty-seven, which grew to a good size, headed up, as other cabbages do, and thus yielded to the family several dishes of fine white cabbage. Some of these heads grew near the old stalk, while others had stems six or seven inches long; some of the heads grew erect while others hung with the buds toward the ground. The stalk is as sound as it was last year.

Have any of our readers noticed anything of the kind, with this species of cabbage, or with any other?

COMPLIMENTARY TO RALEIGH.—A correspondent of the Atlantic *Constitution*, writing from Raleigh, under date of Sept. 24th, speaks of our "burg" as follows:

Raleigh appears to be improving. It is the only place I have seen since I left Atlanta, where I have discovered any evidence of life. A new market house and City Hall are going up, but there is considerable fun over the architectural style of these buildings. Judge D. G. Fowle is also erecting, on the North of the Capital square, a very large and imposing structure, for a hotel building. It will stand upon the site of the old Guion Hotel, and will contain sixty-four rooms, with fire-places.—The proprietor of the Yarborough House, Mr. Blair, will take charge of it when finished, and call it by his own name the Blair House, and if he keeps it as well as he does this house, I can cheerfully recommend passengers to stop with him.

Brick machines appear to be the rage wherever I have been, here. At Greensboro' there are ten, and at this place Judge Fowle is running one by steam, which makes 3,200 per hour. The two-horse machine makes an average of 1,500 per hour. I went out to see them work, and think they ought to pay handsomely, with bricks at $4 per thousand. Yours, etc.,

THE UTLEY
COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes; and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring and we would advise all persons wanting presses to withhold buying until they examine this

THE PRESSES are now being manufactured at the NASH AND BLAND FACTORY OF THOS. H. BRIGGS. All are assured that no business this and next year there is too urgent as to the merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EQUITABLE,	17,44
NORTH AMERICA,	21,16
HOPE,	21,09
UNIVERSAL,	27,34
JOHN HANCOCK,	18,27
THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, even at par. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 507 policies, received an income of a trifle eight thousand dollars, and possessed net assets amounting to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,357 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars, and had assumed, safely, securely and profitably invested net assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

Racy Talk to Sambo—What Judge Dent Tells on the Radical Party in Stumping Mississippi to be Governor.

You are well aware that it is the aim of General Ames and others to perpetuate their rule over the State of Mississippi by a regular system of proscription, if by any means they could procure your assistance in doing so. I have told you that you are not indebted to them for anything, and, therefore, you should not ask yourself the question to "whom shall we attach ourselves at the present time, and who will in reality prove themselves our friends in the present crisis?" Do you not know that the sole object of General Ames, and the party to which we are opposed, is simply to subserve their own interests and to continue their power in the State? The solution of this political problem, therefore, depends on the manner in which you shall vote in the coming election. The future of this State, I may almost say depends on your action, and what you may consider of even greater importance, the permanency of your own race will depend greatly on the manner in which you act, as you may be driven to the frontier like the red man, and disappear as he is doing.

I heard the President declare, in my own presence, and in the presence of a number of distinguished gentlemen belonging to the Republican party, in Washington, about three weeks ago, that it was never intended to give you the right to vote until it became a necessity in the plan of reconstruction of the Southern States. You are not, therefore, indebted to them for the boon of suffrage, as you only received the right to vote when it became a political necessity. Much, therefore, depends upon you at the present time, and, as I have said, it is highly important to yourselves as a people to what party you will attach yourselves in the present campaign.

If they could retain office and continue to plunder the country, they would soon prove false to you, and you would soon find out the truth of the axiom that "blood is thicker than water." They have no sympathy with you, while those with whom you have been raised do love you, not for your votes alone, but because they have true sympathy with you. And I tell you that General Grant is in favor of the honest party.

Yet, here in this State of Mississippi, in the time of peace and quietness, we have a little pompadey, [laughter,] not in a kingdom, but in a free Republic, in time of peace, with impudence that is really sublime, on his own mere motion suspends the glorious writ of right, and deprives citizens of their personal liberty without cause. His impudence is only equalled by his ignorance, as he struts about like a little chicken-cock dressed in uniform. [Roars of laughter.] This popinjay is about thirty years of age, and knows no more about law than the creatures by whom he is surrounded, and yet he suspends the most sacred writ of right while the Government looks on and says nothing.

THE FLORIDA INDIANS.—The Indians are in council near the Big Cypress for the purpose of selecting a chief in the place of Tiger Tail, who some time since committed suicide by hanging himself, and for the purpose of selecting a delegate to represent them in our State Legislature. There are the remnants of three tribes—Seminoles, Tallahassees and Miccosukies—represented in the council, each having an aspirant for the chiefship, but the Miccosukies are the most numerous, and it is supposed that the chief will be selected from that tribe. The Tallahassees, who live on the headwaters of Peace creek, have dwindled down to thirty all told, six of whom are warriors, and the Seminoles are fast being incorporated with the Miccosukies.—From the best information we have there are not more than 125 warriors, including all males upwards of sixteen years of age, now remaining in Florida of the once powerful tribe which for seven years defied the authority of the United States.—*Tampa (Fla.) Koskoo!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. LAWRENCE to ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL,

BEING POSITIVELY THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in *roughness* of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFICACIOUSLY *stimulates* and CORRECTS the *hepatic* secretions and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts FREELY upon the Liver instead of CATHARTIC PURGING, it gradually changes the discharges to A PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its work KINDLY, SILENTLY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the importance of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, [mental and physical] are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows. A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.

ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.
